Detail Information

Detail Information

Place Of Origin:	China
Certification:	Rohs
Memory:	RAM 4GB, ROM 64GB
Shooting Pixels:	Front 5M, Back 1.3M
Coding System:	PDF41, QR Code, Data Matrix, AZTEC, Etc.
NFC:	Supported
Battery:	Replaceable, 4000mAh
Charger:	5V/2A
USB:	Type C
Charing Time:	<4 Hous
Wifi:	Supported
Sim Card:	Supported
Packaging Details:	Carton

Highlight:

pdf41 handheld pda barcode scanner, **qr handheld pda barcode scanner**, **wireless pda terminal**

Product Description

Handheld PDA Scanner Screen Interface Sim Card & Wireless Connectivity for Logistic Use

Description:

The Handheld PDA Scanner is specifically designed for logistics use and features a user-friendly screen interface that allows for easy navigation

and data input. Users can interact with the device through the screen, making it intuitive to capture and manage data efficiently.

Equipped with a SIM card slot, the scanner enables mobile connectivity. Users can insert a SIM card to access cellular networks, ensuring continuous communication and data transmission even in remote locations or during transportation.

Furthermore, the scanner supports wireless connectivity such as WiFi and Bluetooth. This allows for seamless integration with logistics systems, enabling real-time data synchronization, inventory management, and communication with backend systems.

The Handheld PDA Scanner with its screen interface, SIM card, and wireless connectivity offers logistics professionals a versatile tool for efficient data capture, inventory management, and seamless communication, enhancing productivity and streamlining logistics operations.

Specification:

Memory	RAM 4GB, ROM 64GB
Shooting Pixels	Front 5M, Back 1.3M
Coding System	PDF41, QR CODE, DATA MATRIX, AZTEC, etc.
NFC	Supported
Battery	Replaceable, 4000mAh
Charger	5V/2A
USB	Type C
Sim Card	Supported
